Protected by U.S. Patent No. 7,051,580

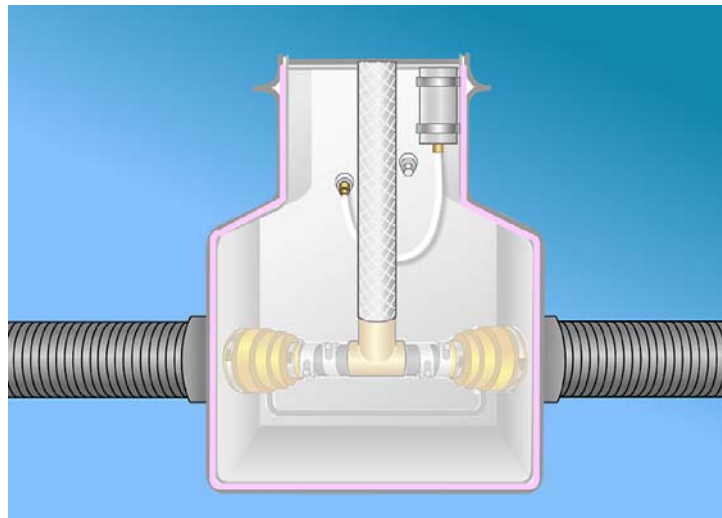

## HYDROSTATIC MONITORING SYSTEM

The Co-Flow Hydrostatic Monitoring System developed by Western Fiberglass, Inc. is certified as a continuous, liquid-filled interstitial space leak detection system. The Co-Flow System is capable of monitoring both the primary and secondary and works with most electronic leak detection equipment. This system is designed for use with both double wall flexible piping and with double wall sumps.

### FEATURES / OPTIONS:

- Easy to install and maintain.
- Minimal evaporation over time.
- Non-toxic if consumed.
- Will not harm the environment.
