ROUND SUMPS

Our unique filament wound construction produces the strongest cylindrical shapes available on the market.

OCTAGON SUMPS

Our flat sided Octagon design allows for lots of working room as well as a large flat surface to install entry fittings.

SPLIT SUMPS

While the Octagon base allows for a flat entry surface, the Round top allows for quick and easy height adjustments in the field.

Western Fiberglass, Inc.
 manufactures retrofit lids for almost
 any application. If your sump is
 taking on water, we have your
 solution for an easy field retrofit!
